SUMMARY

I am a full stack frontend web developer with 4 years of experience in the industry. I am passionate about creating beautiful and functional websites that provide a great user experience. My skills range from designing responsive layouts to implementing complex functionality using the latest web technologies. Over the years, I have worked on numerous projects ranging from small business websites to large e-commerce platforms. I am proficient in HTML, CSS, JavaScript, React, and Node.js, and am always eager to learn new technologies to keep up with the fast-paced web development industry. I am a detail-oriented person with a strong work ethic and believe in delivering high-quality work that exceeds client expectations. I am a good team player and have experience working in Cyber Security solutions, collaborating with designers, developers, and stakeholders to achieve project goals. Thank you for taking the time to read about me! Regenerate response
